

# Call for applications Sino-German Summer School 2006

中德暑期研讨班

## Culture and Negotiation in Management Experimental Methods in Intercultural Relationships

The objective of the summer school is to have Ph.D. students in management science experience intracultural and intercultural negotiation situations. The negotiation setup is applied to the methodological framework of experimental economics, in particular laboratory experiments. Participants will learn to integrate experimental methods into their research. Intercultural communication and exchange between German and Chinese researchers will be initiated and promoted.

Location: Chengdu, China

Date: October 13 – 22, 2006
